

W1

DIN 3021 Heavy-duty Spring-Band Clip

This heavy-duty spring-band clamp is manufactured according to DIN 3021.

It is especially recommended for applications where temperature can vary from -40°C to +120°C.

The design of this clamp means that it can maintain the same radial force despite these changes in temperature. It is fast and easy to mount and is also reusable.

* S = thickness before surface treatment.

* Also available in 15 mm bandwidth.

* Please see pages 84 and 85 for further information regarding application tools.

DIN 3021 W1
